

Preface	IX
Scientific Programme	1
Author Index	37

CLIMATE CHANGE

The Influence of Climate Change

Framework for Decision Support System (DSS) on the Influence of Climate Change on Food Safety Gopaiah Talari, John O'Brien and Enda Cummins	7
---	----------

Toward a Climate Change Resilient Industry: Application to Dairy Manufacturing

Rodney J. Feliciano, Géraldine Boué, Jeanne-Marie Membré and Jean-Christophe Augustin.....	8
--	----------

Climate Change and Microbial Dynamics

Microbial Changes in Dairy Wastewater under Climatic Stress Conditions Styliani Roufou, Sholeem Griffin, Juan Attard, Lydia Katsini, Monika Polańska, Jan F.M. Van Impe and Vasilis P. Valdrimidis	11
--	-----------

Feed-to-Food Chain Framework Model for the Risk Assessment of Mycotoxins and the Context of Climate Change Rhea Sanjiv Chhaya and Enda Cummins	12
--	-----------

Development and Validation of an Expanded Model of <i>Geobacillus stearothermophilus</i> Growth as a Function of Temperature, pH and Water Activity Ourania Missiou and Konstantinos Koutsoumanis.....	13
--	-----------

COST-FOODMC: MATHEMATICAL AND COMPUTER SCIENCE METHODS FOR FOOD SCIENCE AND INDUSTRY

COST-FoodMC: Environmental Modelling and Pest Control

Population Dynamics of the European Corn Borer <i>Ostrinia Nubilalis</i>, Adults in Slovenian Hop Gardens in 1999-2018 Magda Rak Cizej and Pasquale Trematerra	19
--	-----------

CONTENTS

Forecasting the Distribution of Phosphine and Insect Mortality in Cylindrical Grain Silo with Computational Fluid Dynamic for Precision Fumigation: Model Validation with Field Trials Paraskevi Agrafioti, Efstathios Kaloudis, Sotiris Bantas, Vasilis Sotiroudas and Christos G. Athanassiou	20
COST-FoodMC: Food Production and Business Analysis	
Visualizing FOODMC COST Network, Graph Database and Visualization Web Tool Kamal Kansou and Christophe Fernandez	23
Monitoring Honey Bees using a Sensor Network Andrzej Sobiecki, Julian Szymański and Tymoteusz Cejrowski.....	24
Assessment of Quality Management System in Beverage Industry Based on Fuzzy Modelling Mirza Uzunovic, Aleksandra Nikolic and Dusanka Boskovic.....	26
Modeling of Consumer and Functional Properties of Pastry Based on Natural Ingredients Kateryna Khvostenko, Kateryna Iorgachova and Olga Makarova.....	27
COST-FoodMC: Food Production Optimization	
Modeling of Supercritical CO₂ Extraction Processes for the Selection of Productive Strategies Jose Bon, Luis Torró, Neus Sanjuan, Jose Benedito and Miguel García.....	31
Optimization of the Pasteurization Process of Andalusian Gazpacho: Simulation of the Food Temperature Evolution inside the Plate Heat Exchanger Jose Bon, David Fita, Neus Sanjuan, Jose Benedito and M. Paz Villalba	32
Investigation of Rheological Properties of Different Gluten Free Cake Batter Formulations by Using LAOS Method Esra Özyigit, Ismail Eren, Seher Kumcuoglu and Sebnem Tavman	33
