TUTORIAL

The Myths (and Truths) of Java Games Programming Andrew Davison.....	5
--	----------

GRAPHICS AND RENDERING

Optimizing the Deferred Shading Frank Puig Placeres.....	13
--	-----------

Effective Multi-resolution Rendering and Texture Compression for Captured Volumetric Trees Christian Linz, Marcus Magnor, Alex Reche-Martinez and George Drettakis ...	16
--	-----------

Realistic Rendering of Point Cloud Models with Ambient Shadowing and Environment Lighting Sushil Bhakar, Feng Liu, Thomas Fevens and Sudhir Mudur.....	22
--	-----------

Interactive Learning Interface for Automatic 3D Scene Generation Yoshiaki Akazawa, Yoshihiro Okada and Koichi Nijima	30
--	-----------

ARTIFICIAL INTELLIGENCE IN GAMES

Applying Robotic Techniques for Behavior Recognition in Game Agents Verena V. Hafner, Christian Bauckhage and Martin Roth.....	39
--	-----------

AI System Designs for the First RTS-Game AI Competition Michael Buro, James Bergsma, David Deutscher, Timothy Furtak, Frantisek Sailer, David Tom and Nick Wiebe	44
---	-----------

A Multiagent Soccer Simulator based on a Simplified Soccer Model Iwein J.J. Borm and L.J.M. Rothkrantz	49
--	-----------

A Guided Genetic Algorithm for the Planning in Lunar Lander Games Zhangbo Liu.....	55
--	-----------

CONTENTS

A First Look at Build-Order Optimization in Real-Time Strategy Games Alex Kovarsky and Michael Buro	60
---	----

GAMING WITH ROBOTS

Robot Soccer Strategy Described By Text File Vaclav Snasel, Jan Martinovič, Pavel Kromer and Bohumil Horak	67
--	----

An Aibo Watchdog Zhenke Yang, Bou Tsing Hau and Leon Rothkrantz	74
---	----

MOBILE GAMING

On guaranteeing Equity to Mobile Players in a Metaverse Stefano Cacciaguerra	81
--	----

On Bringing Adventure Games into the Mobile Gaming Scenario Marco Furini	86
--	----

Using Mobile MultiHop Adhoc Networks for MultiPlayer Games Oliver Wellnitz and Lars Wolf	91
--	----
