

Preface	IX
Scientific Programme	1
Author Index	113

Modelling and Simulation Methodology

RFID Based Access Control System by using Arduino Safa Ali Abed and Khansaa Dheyaa Aljafaar.....	5
------------------------------------------------------------------------------------------------------------	----------

Wavelet Transform: Theory, Analysis and Development Asmaa Hameed Rasheed and Bayan M. Sabbar	13
--------------------------------------------------------------------------------------------------------------	-----------

Security Data Modelling

Fetching and Analyzing Iraqi Crisis Tweets Bayan Alsabar and Noor Saihood Alajili	23
---------------------------------------------------------------------------------------------------	-----------

Study of Data Security Risks for E-Government Abdulhakeem Amer A.....	30
---------------------------------------------------------------------------------	-----------

Service Innovation and Industrial Application

The Role of Enterprise Risk Management on Disclosure Transparency in the International Financial Reporting Standards Period Bisan K. Almasri.....	37
-------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------

Minimizing Transmission Load in the 433 Mhz Radio Link based Image Sensor S Suherman, Marwan Al-Akaidi and Al-Khowarizmi	47
------------------------------------------------------------------------------------------------------------------------------------------	-----------

Biomedical Applications

Harmonic Analysis for a Medical Facility in Amman – Case Study Anas Kata'a, Abdullah Abu Leahya and Othman Al-Smadi	53
-------------------------------------------------------------------------------------------------------------------------------------	-----------

Identifying the Situation of COVID-19 Patients Using Ontology and Semantic Web Hayder Ibrahim Hendi and Haider Hassan Mshali	57
----------------------------------------------------------------------------------------------------------------------------------------------	-----------

CONTENTS

Digital Signal/Image Processing

Estimation of Coherent Signal on Modified Coprime Array

Fatimah A. Salman and Bayan M. Sabbar65

Measuring Significance of Factors Influencing Effectiveness of Visual Elements in Advertisements: An Approach Proposal

Yue Wu, Hongji Yang, Zhongxi Lu, Yinwei Liu and Chong Zeng71

A Machine Learning based Associating Degree Predicting Algorithm in a Tourism Application

Qinyun Liu, Marwan Al-Akaidi and Hongji Yang.....79

Expert FPGA Based Design for Huge Data Systems

Asmaa Hameed Rasheed.....84

Microstrip Slot-U Rectangular Antenna Implementation for Broadcasting TV Receiver

Arman Sani, Citra Fadhillah, Suherman and Marwan Al-Akaidi92

Proposed Logarithmic Features for Automatic Modulation Classification

Bayan M. Sabbar and Hussain A. Rasool.....97
