

Preface	IX
Scientific Programme	1
Author Listing	83

Keynote

Artificial Thinking: A Multi-Agent System of Insight in a Stream of Perceptions? Joël Colloc	5
--	----------

Human Machine Interfaces

Pragmatic Model for Human Role Definition in Mixed Intelligence Solutions Anton Ivaschenko, Arkadiy Krivosheev and Tatiyana Nikiforova	19
Categorical Data as a <i>Stone Guest</i> in a Data Science Project for Predicting Defective Water Meters Giovanni Delnevo, Marco Roccetti and Luca Casini	24
An Attempt to Model Decision Processes for Time-Constrained Applications Izabella V. Lokshina and Cees J.M. Lanting	27

Immersive Technologies

Lessons Learned and New Research Opportunities in Immersive Technologies for Defence Applications Charles Hamesse, Jeroen Nelis, Rob Haelterman and Salvatore Lo Bue	33
A Taxonomy of Contemporary Artificial Intelligence Techniques used in Virtual Reality Training and Simulations Ivan De Boi and Pieter Jorissen	41
UX Evaluation of VR Locomotion & Virtual Object Interaction Mechanics Daniel P. O. Wiedemann, Peter Passmore and Magnus Moar	49

Future Data Management and Infrastructure

The Barrier of Meaning in Archaeological Data Science Luca Casini, Marco Roccetti, Giovanni Delnevo, Nicolò Marchetti and Valentina Orrù	61
--	-----------

CONTENTS

Recursive Decomposition Model for the Big Data Exchange

Anton Ivaschenko, Anastasia Stolbova and Alfiya Diyazitdinova.....66

Using Wireless and Mobile Technologies in Healthcare on a Wide Scale: The Issues and Challenges to surmount

Izabella V. Lokshina and Cees J. M. Lanting69

Future Farming and Food Production

Food of the Future: Fantasy or Realistic Forecasts

Monika Polańska and Jan F.M. Van Impe77
