20th - 23th November 2023

About

The aim of the conference is to bring people from various parts of the middle east in contact with colleagues working in modeling and simulation from around the world. The conference also aims to integrate the contacts into a wider network of simulation excellence. The conference covers a wide range of simulation subjects in order to capture the general thrust of simulation research at present being done in the Middle East.

Conference Motto

Sober Scientific Research the Portal for Sustainable Development.

What

Middle Eastern Simulation and Modeling (MESM 2023)

The MESM2023 will draw together experts, scientists and researchers from around the world. The conference will consolidate the communications of the people working in the simulation and modeling aspects and exchange their thoughts and experiences and the latest scientific activities in different fields.

Al-Farahidi University

Where

Al-Farahidi University

Al-Farahidi University is one of the largest Iraqi Universities which was established in Baghdad in 2012. The University includes (8) Faculties and despite its recent establishment, it was able, in a record period, to keep pace with the current academic programs in teaching and learning. It rises to the ranked of sober Universities and has entered the local and international rankings of Universities and organized a number of distinguished conferences and festivals in various scientific fields, making it a center for attracting students and researchers in scientific and humanitarian disciplines.

The Conference will take place in collaboration among 5 universities: Al-Farahidi University, Baghdad University, Al-Nahrain University, University of Technology, and Istanbul Medipol University.
